# ALUMINUM MASTER

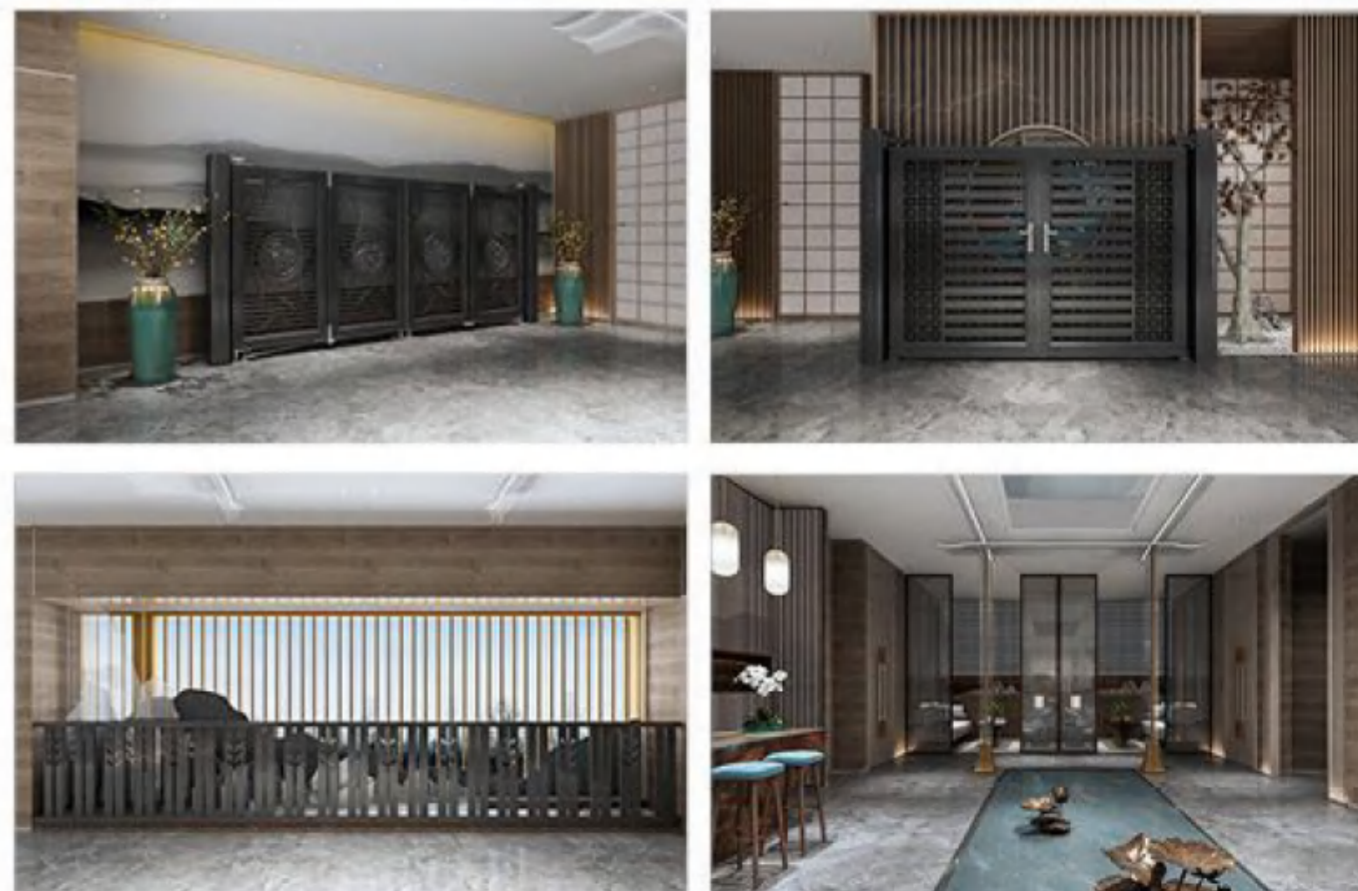

## ABOUT US

Foshan Gumei Aluminum Art Building Materials Co., Ltd. (referred to as Gumei Aluminum Art) is a domestic aluminum art enterprise with a certain scale and complete industrial value. There are core technology research and development teams, design teams, systematic production workshops and a huge sales system.

The products cover aluminum art gates, aluminum art guardrails, aluminum alloy gazebo grape trellises, aluminum alloy carports and canopies. Founded in 2012, the company is located in Qixing Industrial Park (next to Foshan Airport) in Foshan City. After leapfrog development, it has obtained national patents in a number of core technology fields.

Gumei Aluminum Art is committed to creating high-quality aluminum art home furnishing products, with the business philosophy of one-stop service provider for courtyard space Luyi home furnishing, and has won unanimous praise from consumers with its corporate culture of honest service, detailed quality, product innovation, and social responsibility. .

"Beauty because of family, beauty and art" is a kind of life aesthetics that we convey to consumers. Do not pursue complicated shapes, colors, and decorations, use simple shapes and extreme craftsmanship to create high-quality courtyard aluminum art products, and provide customers with warm after-sales services. Let consumers feel our "five-hearted service" of sincerity, care, patience, concentration and responsibility.

## THE FOUNDER OF STYLE

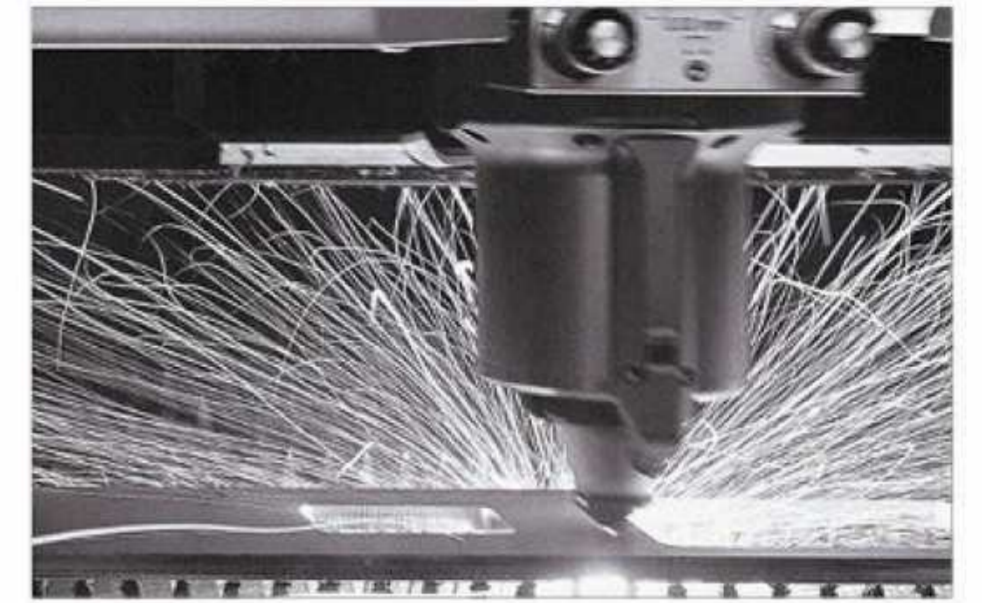

### Jack Steger and Design Philosophy

Art, space conception, rational use of mechanics, architectural home culture discourse and proof of practice and experience in life have given birth to its cross-age classic design philosophy. Technology and art are mutually unified. New materials and new technologies show perfect and precise artistic effects. The product structure is upgraded to a work of art.

Chief Brand Designer: Jack Steger

A handwritten signature in black ink, appearing to read 'Jack Steger'.

### Tribute to change Customize your style

## NEW CHANGE

Professional design team, according to the world's fashion trends to create. Starting from materials, crafts, and colors, we condense the essence of trends in a simpler way. Aesthetics is not something that is elevated to the sky. It is perfectly interpreted at this moment. With aluminum alloy as the carrier, the fusion, design, and re-polishing of many cultures and concepts present the splendor of the portal concept. In this moment, reawaken.

### Aluminum profile lines Show the beauty of simplicity

The aluminum profile line is formed by one-time stretching of aluminum, and the style is developed and created by the company itself, which realizes 45-degree splicing at the diagonal corners of the door leaf, which is far ahead of the peers' three-dimensional grooves, making the whole door body more three-dimensional.

## INHERITANCE QUALITY ACHIEVEMENT BRAND

### Raw material purchasing

The choice and combination of materials and the timing of digging require more thinking and choices. Aluminum is the most suitable metal material for courtyard protection in the world. We only use high-quality aluminum, which has good stability, impact resistance, and durability. corrosion.

### The product design

Gumei breaks through the design limitations in the external design of products, and creates unique products with both aesthetics and practicality, so that the products can meet the personalized home decoration style.

Gumei's pursuit of dry details is almost paranoid, and the aviation-grade welding process strives to create the ultimate in every detail. With an extremely prudent attitude, every product is perfect.

### Surface treatment

Gu Mei treats people with sincerity and creates value, and devotes ingenuity to each product. The master craftsman has polished and tempered it thousands of times. This harshness stems from Gu Mei's dedication to the work and respect for the user.

## ADVANTAGES AND SERVICES

### Brand advantage

Each of our excellent works reveals the unique artistic substance and aesthetic feeling of stylization, and realizes the perfect combination of art and humanities: what we advocate is not only the sensory effect, but also reflects the life value and connotation of the owner. Inspire modern people to think about space culture and artistic life.

### Product advantage

We pay great attention to every detail requirement of the product. Almost everything is engraved, striving for perfection. We use details to improve quality, and use quality to highlight temperament. This temperament not only includes European exquisite craftsmanship, but also combines European modern aesthetic style to highlight the classic quality of life.

### Manufacturing advantages

Adopt the most advanced technology in the world today. Dozens of special surface treatment procedures, the use of high-tech technology, and special coating technology ensure that the product has strong anti-ultraviolet aging and chemical corrosion resistance. Moreover, the products are far ahead of the same industry in terms of color fastness, durability and other indicators.

### Service advantages

We have been advocating the service concept of "customer first, timely and thoughtful", and constantly improving the quality of customer service. The company has established a set of scientific, reasonable, caring and enthusiastic service system to better serve the actual needs of customers and provide the most powerful support for the development of customers.

## Angel of rhyme

Flowing shape like a beautiful appearance and clever posture, like the guardian angel, always with you.

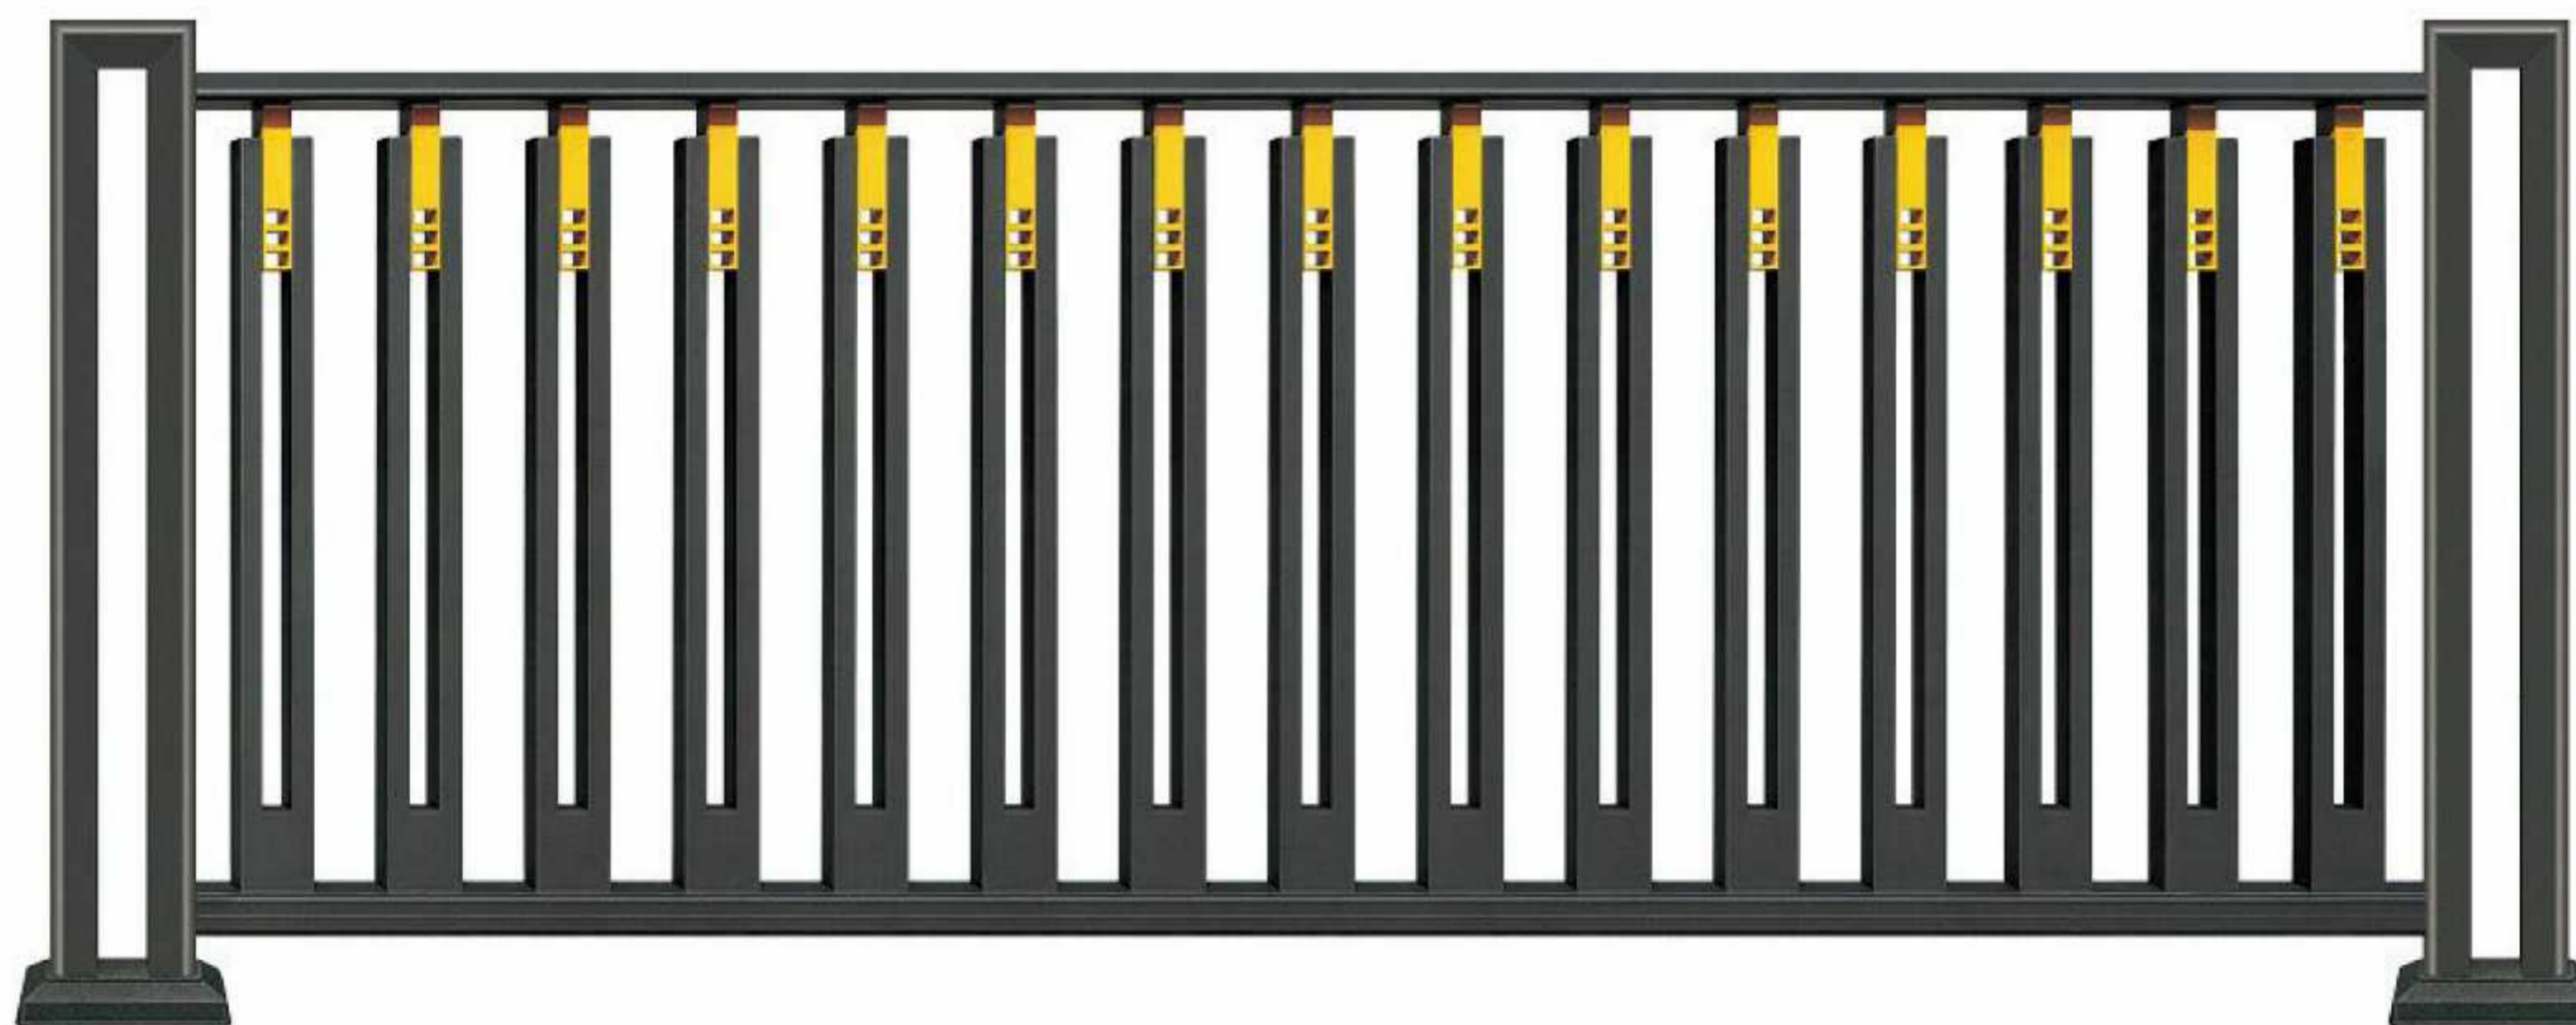

## Simple life aesthetic

The ultimate creativity for this, exquisite  
quality for all for better

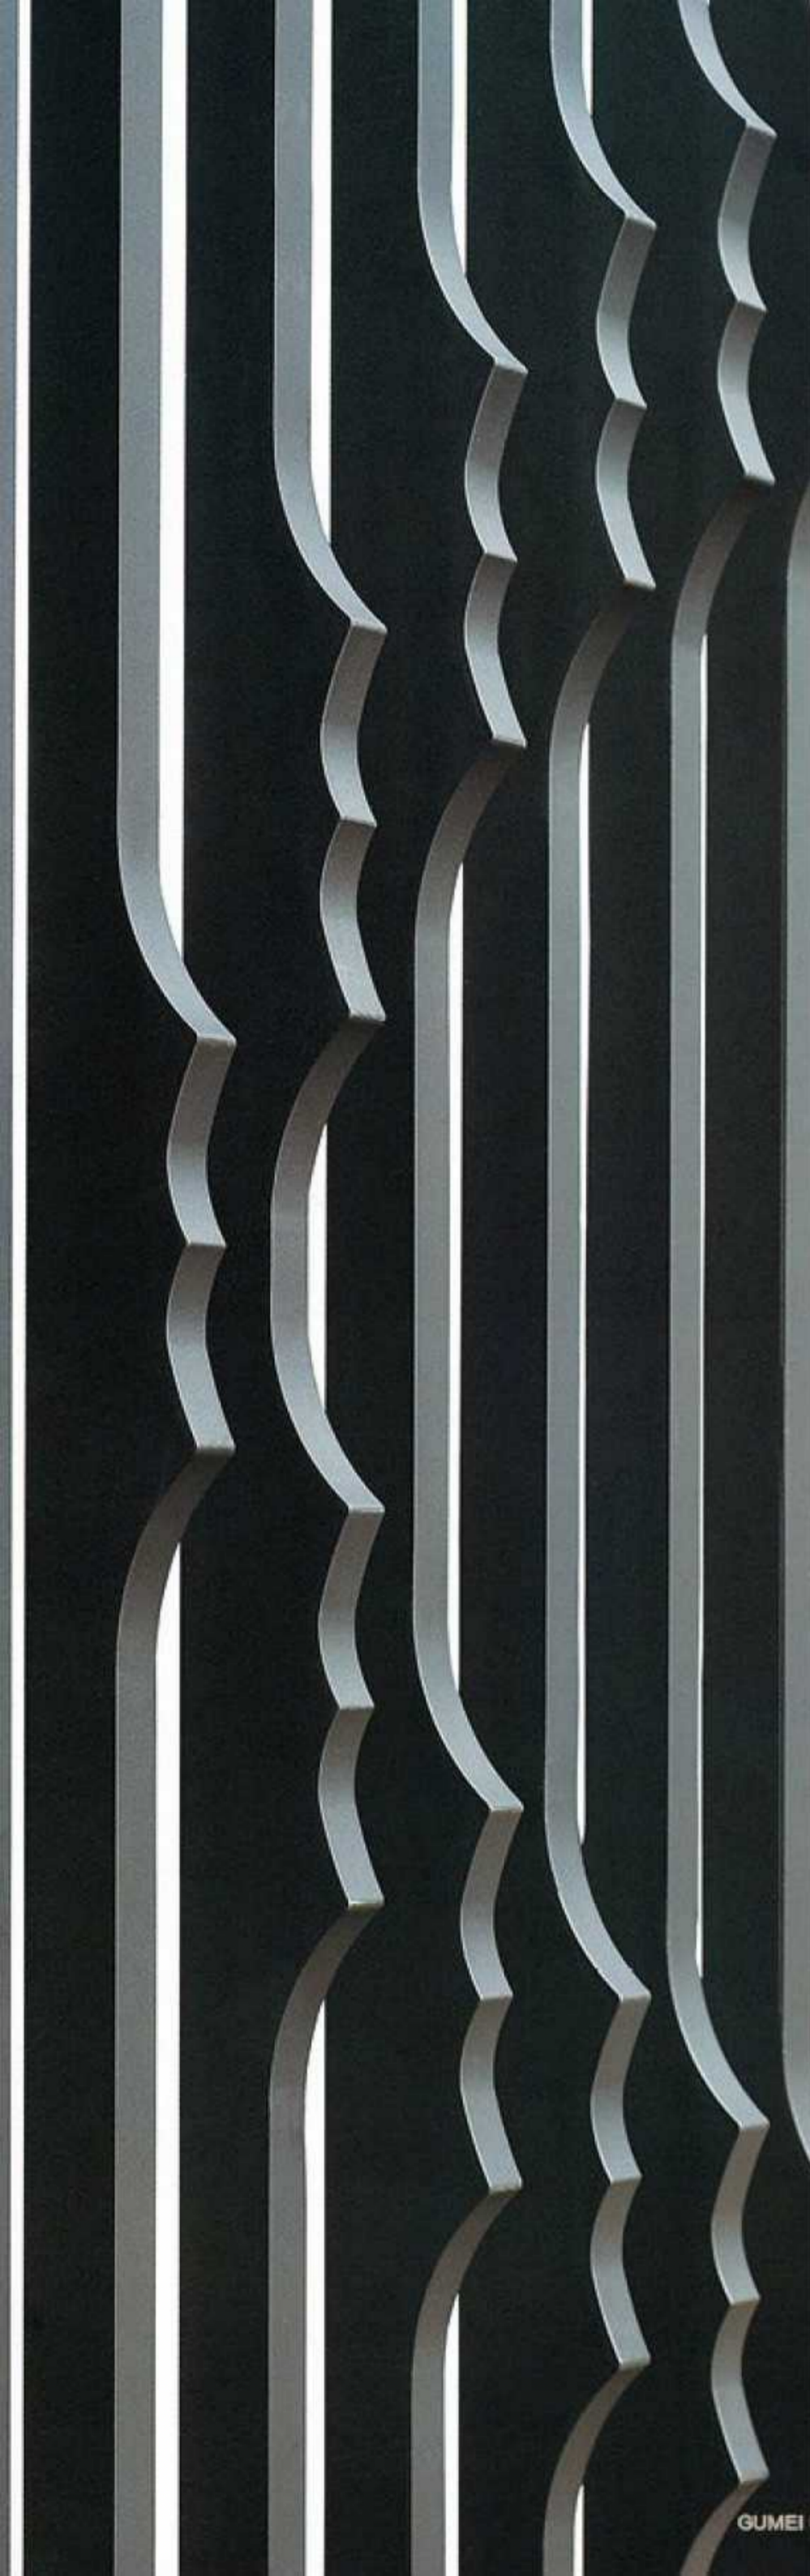

| GM-H001 Balcony railing

Art and taste for a body, simple but not simple, introverted but not publicity, taste and do not lose quality, with the design concept of minimalism, eliminate unnecessary and complicated follow to the high quality standards, achievement of simple luxury art.

## LINEAGE HISTORY

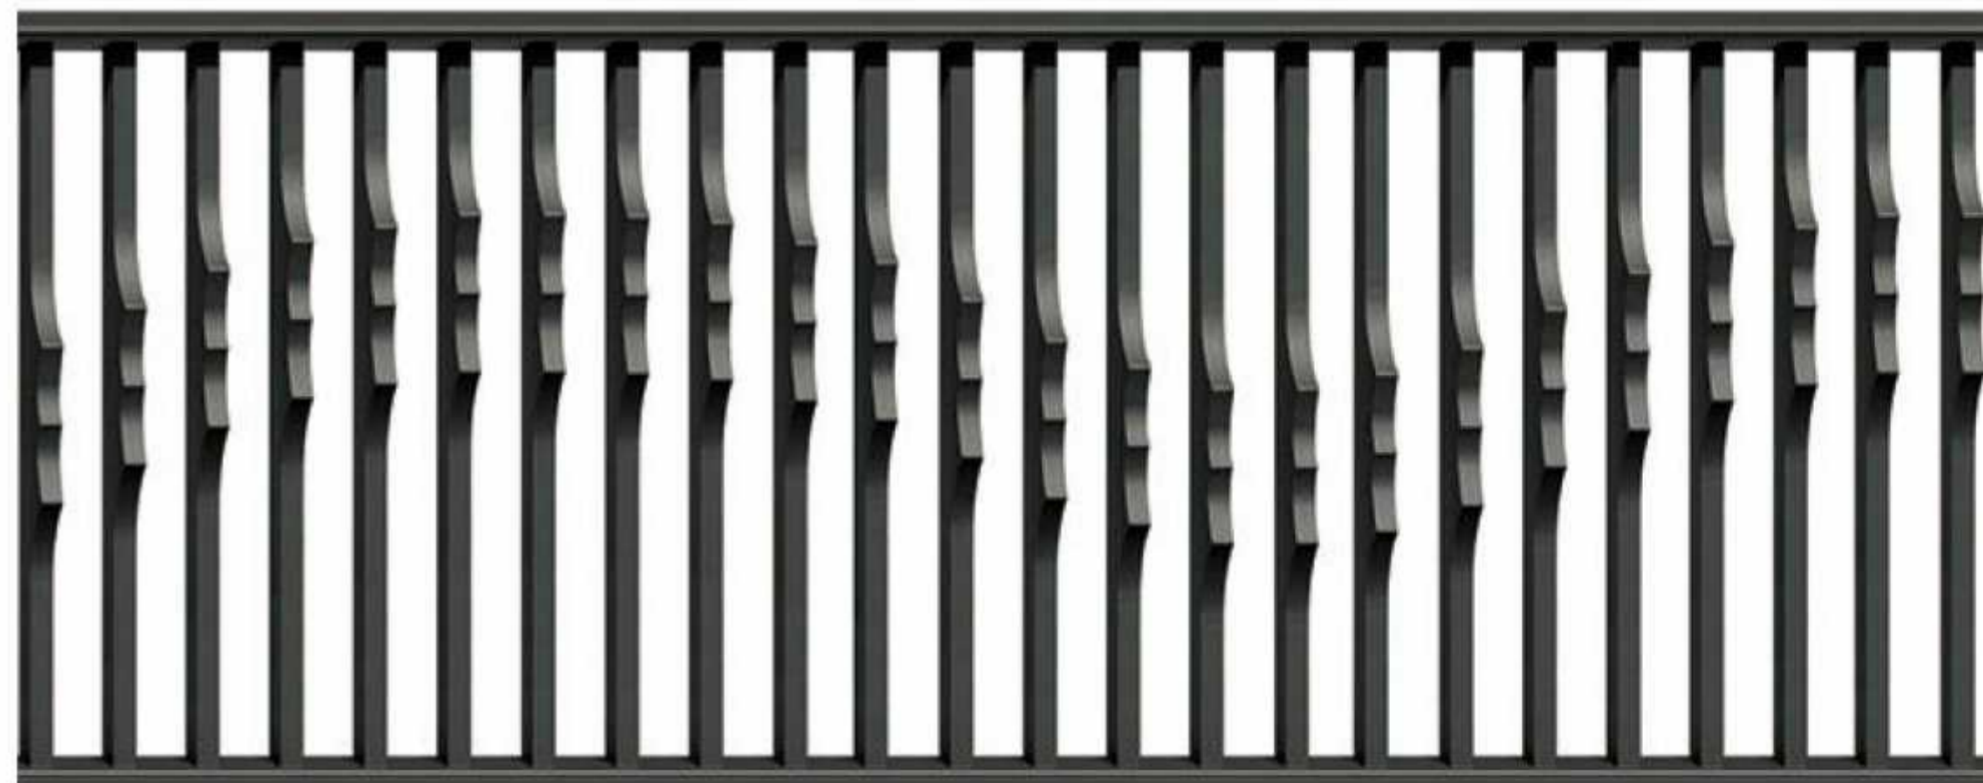

The wisdom in simplicity is that we can always see more in simplicity. The regular surface design is unconventional. Easily set off an industrial atmosphere. The low-key color matching can hardly hide the bright color decoration, which is eye-catching. Calm and inner effect temperament. It is always reminiscent of a gentleman in a leather suit, with small accessories dotted on it, like an inadvertent arrogance.

Only beautiful outside  
Details make classics
