SHANGMEI YANG GUANG

— life

Giving every space beauty and design beauty is what
Shangmei people have been working hard for all their lives
It is also the belief that Shangmei Sunshine brand has
never changed from the beginning to the end

SHANG MEI YANG GUANG

Management Philosophy:

Goal-oriented, innovation as a means, focus on process control and operational efficiency, and promote the sustainable development of enterprises

Product concept:

Intensive research on scientific human settlements to create a safe space

Brand Concept:

Create high-grade, trustworthy and warm brand awareness and feelings for customers

Service philosophy:

Take the customer as the center, help customers solve problems, exceed customer expectations, and be a steward of outdoor product safety

Talent Concept:

Simple life, hard work

Learning Philosophy:

Learn everywhere, learn all the time

**The pursuit of satisfaction, never satisfied**

We will go all out, never-ending innovation and progress, and satisfy consumers, investors, society, government, and employees with high-quality products, comprehensive services, and a perfect public image.

ABOUT US

Foshan Gumei Aluminum Art Building Material Co., Ltd.

Our company was founded in 2015, more than 7 years of industry experience with design, production, sales, after-sales service etc... integration of professional comprehensive capabilities. The company has advanced production equipment and first-class engineers, national welding workers, to ensure the quality of products and delivery time. We have a wide variety of products, so that customers have more choices.

We support OEM and product customization, with a professional design team tailored to customers, with strong flexibility. We have strict quality control process and professional after-sales service team, to solve customer worries.

One-Stop Manufacturer Supplier For All Kinds Of Aluminum Products.

Recommends

SHANG MEI YANG GUANG

"Made in Germany" has long been synonymous with quality assurance for many consumers. Many world-renowned brands from all walks of life all reflect the extraordinary creativity and demanding quality of "German craftsmen". In the building materials market, we have undoubtedly become the representative of German technology, bringing the excellent German manufacturing technology to the extreme. We have won many favors in the industry and have been widely promoted and applied in the market.

Quality Awareness:

German craftsmanship has always attached the most importance to product quality. Our value of excellence has been deeply rooted in the hearts of the people and has become a conscious behavior of employees.

Innovative mind:

We believe that research and development determine the future of the company, and we value originality and high professionalism in research.

Rational awareness:

Our rational principles, ergonomic principles, and functional principles in product technology are the natural purposes, and we will never give up because of commercial pressure.
